

# SOFTWARE COCO

We create complete solutions for measuring, testing and assembly systems from planning to production to assembly and commissioning.

**Convince yourself of NMIMH -**

**Innovation is our world**

Informations

# COCO

With the production software CoCo (ControlCockpit) developed in-house by NMH, all production processes can be monitored and managed in the future. Everything is integrated, from the machine status to the planning board and the direct call-up of drawings to feedback on the number of items produced and the location of articles.

## Paperless production:

In the age of digitalization, manufacturing processes based on paper forms can no longer withstand digitized industry. With the introduction of paperless production, NMH is setting new standards in terms of progress and ecological action. NMH relies on the use of ESL (E-shelf labels). These can be managed and labeled centrally.

OUR WORLD

**About NMH**

NMH is one of the “hidden champions” for complex measuring, testing and assembly systems. The company employs around 100 employees at the Hohentengen location. NMH offers complete solutions – from the design to the final production, assembly and commissioning. Nearly all German premium automotive manufacturers and their suppliers are NMH customers.
