

MuLedCon Multi LED Controller

We create complete solutions for measuring, testing and assembly systems from planning to production to assembly and commissioning.

Convince yourself of MNH -

Innovation is our world

MULEDCON

LED controller for single or multiple control of LEDs within a display system

The area of application are all areas in which a targeted visual display of individual areas is required, e.g. storage or tool removal systems. The controller itself is controlled via an Ethernet protocol. This can be connected to PLC controls and / or IT hardware.

MULTI LED CONTROLLER

Features overview:

- >> Industrial housing IP 65
- >> DIN rail mounting
- >> M12 connector for Ethernet
- >> M12 connector for 24V
- >> M12 connector for LED connection
- >> 512 LED controllable
- >> At a distance of 15mm = 8 meters, 85 LEDs can be controlled simultaneously
- >> The length can be extended for larger LED spacings

A TIA block is provided for control.
